

The College of Psychic Studies L O N D O N

Discover Your Power To Heal

11 September 2011

Are you sensitive to atmospheres and moods? Do you want to help people? Can you connect with animals? Have you got green fingers? Do you think that there is a good energy in the universe? Do you want to make a difference? If you answered YES to any of these questions, this workshop will help you to expand and develop your innate healing powers. Topics include healing energy, the aura, chakras, grounding and protection, meeting your guides and practical ways to create positive energy for yourself and others.

Georgia trained at the College and has studied complementary approaches to health and healing for over twenty years. She runs an energy-healing clinic, teaches healing workshops, and is a published author.
